---

II annual international expo forum for equipment, technologies and materials for the mining and extractive industry, mining and smelting complex, and the generating industry **"Mining, Metallurgy, Generation 2019"** will be held at the IEC "Novosibirsk Expocenter" from 25 to 27 September, 2019.

Organizer of the expo - LLC "Tsentr Expo".

**"Mining, Metallurgy, Generation 2019"** - international expo forum, largest integration industry event of the year in Russia. That is a unique and effective business venue where decisions will be made and contracts signed, which will determine a new stage of development of the mining industry, metallurgy, and generation within the frameworks of the "Industry 4.0" strategy.

**Mission of MMG 2019** - facilitation to the promotion of the mining, mining & metallurgy and generating industries through promotion of new promising technologies and solutions of substantial economic effect, which comply with the topmost environmental standards.

Uniqueness of the forms of the new expo forum **"Mining, Metallurgy, Generation 2019"** - the opportunity to discuss and make comprehensive decisions for interrelated and in many ways interdependent industries on the main topical problems: increase of performance and improvement of ecology.

For the first time, at the same venue gathered will be:

- enterprises on mining and reprocessing of solid commercial minerals: Coal, ores of ferrous, non-ferrous, rare-earth, and precious metals, as well as power-generating enterprises of Russia and ex-USSR countries;
- leading Russian and foreign manufacturers of equipment, machinery, technologies, IT products for the mining industry, metallurgy complex, and energetics;
- representatives of specialized institutes, developers of breakthrough process design concepts and ideas, outstanding scientists;

The expo is held with support from the RF Government, administration of the Presidential Plenipotentiary Envoy of the RF in the SFD, Government of the Novosibirsk region.

On the agenda of the expo forum: roundtable talks, conferences, plenary sessions with the participation of representatives of the federal and regional authorities; chief executives of leader companies, international investors, and financial institutes.
